Remember all people are always changing. When we judge them, we judge on what we believe we know of them, failing to realize that there is much we do not know, and that they are constantly changing as they try for better or worse to cope with life. Give others credit for having had many victories which are unknown. We are all of the same cloth, though of a different cut.

Remember you too are always changing, and you can direct that change consciously if you so desire. Yourself you can change. Others you can only love.
